Two simple steps to your perfect worktop

- 1.** Select your worktop from TC30, TC40 or TSQ40.
- 2.** Choose your décor.
See the décor availability charts on pages 22-27.

As easy as riding a bicycle:
that's Tandem!

LAVA SAND

TC30

30mm Curved Edge

30mm thickness worktops and breakfast bars* together with upstands and splashbacks that won't break the budget.

Slimline

The 30mm thickness of TC30 is in tune with the current kitchen design trend for thinner worktops.

On trend

The leading edge of TC30 worktops and both long edges of TC30 breakfast bars* have classic, gently curved edges: which still look great!

Low cost

TC30 is the lowest cost range from the Tandem Collection.

Full availability information can be found on pages 22-23

*Breakfast bars are sometimes called island units or peninsula units. All these descriptions refer to the same product.

TC40

40mm Curved Edge

40mm thickness worktops and breakfast bars* with solid colour, granite, marble, wood and patterned decors. All available with colour matched upstands and splashbacks at a great value price.

New Curved-Edge

TC40 has a modern, tightly curved profile for the leading edge of the worktops and both long edges of the breakfast bars*. These new curved edges give TC40 an almost square edge look, which is a very popular kitchen surface trend.

Solid look

The 40mm thickness of TC40 is still the most popular choice for kitchen worktops and breakfast bars*. The laminate wraps around the top and bottom surface of each TC40 edge; this gives TC40 additional protection and looks great!

Décor choice

15 sophisticated solid colour, granite, marble, wood and patterned décors to choose from.

Full availability information can be found on pages 24-25

*Breakfast bars are sometimes called island units or peninsula units. All these descriptions refer to the same product.

SNOW SPARK

WILD WOOD

TSQ40

40mm Square Edge

TSQ40 is the latest addition to the popular Tandem Collection. It is a range of 40mm thickness worktops and breakfast bars* with ultra-modern square laminate edges. Colour matched upstands and splashbacks are also available.

Square Edge

Square edges are a strong designer trend because of the demand for a solid and seamless look: which is what you get with TSQ40 square edges.

Seamless look

The laminate décor for the surfaces of each TSQ40 worktop and breakfast bar* exactly matches their square laminate edges.

Great value

Despite being at the cutting edge of kitchen surface design, TSQ40 is offered at a truly affordable price, keeping to Tandem's commitment to deliver great value for money to its customers.

Full availability information can be found on pages 26-27

*Breakfast bars are sometimes called island units or peninsula units.
All these descriptions refer to the same product.

Breakfast Bars* and Worktops

The extra width of breakfast bars* in the Tandem Collection gives you the room to prepare food and sit together with your family and friends to socialise and enjoy a meal.

The image on the right shows a TC40 breakfast bar* with a TC40 worktop in the background. All the décors of TC30, TC40 and TSQ40 are available as both breakfast bars* and worktops.

CYPRESS CINNAMON

NATURAL BLOCKED BEECH

Tandem Upstands

3000 x 100 x 18mm

Décor matching laminate upstands will add the finishing touch to your worktop and breakfast bar* installation. Not only do Tandem upstands look great, they protect your walls by providing an effective barrier to water and impact.

Easy to install and keep clean, upstands are also great value for money.

All the décors of the upstand range exactly match the décors of the complete Tandem Collection of worktops and breakfast bars*.

Full availability information can be found on pages 22-27

*Breakfast bars are sometimes called island units or peninsula units.
All these descriptions refer to the same product.

Tandem Splashbacks

3000 x 1200 x 8mm

Tandem splashbacks are a cost effective alternative to tiles, and they are so much more hygienic than the grouted joints of tiles: where germs can develop.

Just like Tandem upstands, Tandem splashbacks are produced using the same laminate décors that are used for Tandem worktops and breakfast bars, so you get a beautifully seamless look. Tandem laminate splashbacks will also hygienically protect your walls by providing an effective barrier to water and impact.

And they are so easy to wipe clean!

A wide selection of splashback décors are available for the complete Tandem Collection of worktops and breakfast bars.

Full availability information can be found on pages 22-27

BLACK SPARK

WEATHERED CERAMIC

Surface Finishes

There's something for everyone.

In addition to the huge selection of solid colours, woods, granites, marbles and abstract patterns that the Tandem Collection can offer, there are 6 exciting laminate textures and other surface finishes. We have tried to describe them here, however there is no substitute for seeing and touching the real thing to fire the imagination.

Glaze

A stunning texture which combines variations of surface depth, gloss and matt with the underlying décor colours to create a striking contemporary finish.

Autumn Granite, Black Quarry
Weathered Ceramic

Quartz*

A reflective surface, incorporating dazzling multi-coloured metallic elements which are freely distributed to give a unique finish and look.

Black Spark, White Spark

Gloss*

This highly reflective, luxurious gloss is one of our most popular finishes; however it does require a little more care and attention in order to retain its glamour.

Black Slate

Satin

Satin produces a semi-polished sheen to enhance the colours of the décors that use this attractive texture. It is also a hard wearing finish.

Black Slate, Black Labrador,
Taurus Black, Granite

Matt

Matt is used with some of our stone and wood décors where the delicately textured surface helps to create the authentic look and feel of a natural surface.

Walnut, Walnut Butcher Block,
Natural Block Beech, Blocked Oak,
Grey Dust, Lava Sand, Taurus Beige,
Grey Lightning Stone, Corinthian
Marble, White, Pearl White, Patmos

Wood

A subtle variety of textures which follow the natural grain of real wood.

Brasero Wood, Wild Wood,
Cypress Cinnamon, Colmar Oak

*Quartz and Gloss surfaces are more prone to scratches than other worksurface finishes so please take additional care when handling and cleaning.

Please check our availability charts on pages 22-27 for each Tandem surface finish and texture.

Tandem Quality

Tandem surfaces are manufactured using the BS/EN 4965 standard; this gives you the best heat, water, abrasion and impact resistance.

The BS/EN438 laminate surface is bonded to EN312/2003 E1 high density particle board whilst waterproof foil is bonded to the underside of each worktop and breakfast bar: this protects all Tandem worksurfaces from water penetration. TC30 and TC40 also have a polyurethane seal to protect their front edges from water.

- The rear edges of all Tandem worktop ranges are also waterproofed.
- Gloss décors have a protective foil, which is removed during the installation process.
- Each Tandem worktop and breakfast bar has a free of charge loose laminate edge for your installer to seal all edges cut on site.
- The Tandem Collection has achieved the ultimate mark of quality – the FIRA Gold Award.
- All Tandem surfaces are supplied with protective polythene wrapping.
- We offer a high quality delivery service guided by our BS EN ISO 9001:2008 management standard and OHSAS 18001:2007 safety standard.

BRASERO WOOD

CORINTHIAN MARBLE

Tandem and the Environment

All timber products used in the production of Tandem worktops, breakfast bars, upstands and splashbacks come from well-managed and sustainable forests, certified in accordance with the rules of the Forest Stewardship Council (FSC) or the Program for the Endorsement of Forest Certification (PEFC).

The Tandem Collection has excellent product recycling properties.

The use of Tandem's amazingly realistic wood, granite and marble effect décors means that it is completely unnecessary to cut down exotic species of real wood within our forests or disrupt the earth by mining for granite and marble.

A close-up photograph of several bright red chili peppers resting on a light-colored wooden surface. The peppers are covered in small water droplets, suggesting they are fresh. The wood grain is visible, running diagonally across the frame. A red rectangular overlay is positioned in the upper right corner, containing white text.

Tandem TC30

With a selection of 15 décors to choose from, Tandem TC30 gives you all the design options you should need.

Add to that the modern slim look of this curved edge 30mm thickness range and a remarkably low purchasing cost. Tandem TC30 is a winner!

Sizes, décor choice and all other details can be found on the availability chart.
